34" HATHAWAY

The Hathaway dresser combines a shaker simplicity with careful proportions and tall bevelled legs that give the piece its character. Hidden within the restrained form is an intricate web of traditional joinery that supports dovetailed drawers running on wood slides. The spare surface features turned knobs and recessed handles that provide access to the lower drawers. The Hathaway dresser is available in horizontal and vertical formats with 5 to 12 drawers. The small drawers are perfect for cutlery and napkins in the dining room, office supplies in the home office or hats gloves and dog leashes in the front hall.
